CULVERT ESTIMATE

Date: _____

Estimated cost of culvert: _____
(plastic culvert) (metal culvert)

Address: _____

The price listed above is for storm culvert you have requested. Because of the oil price increases taking place the price of the plastic pipe has increased considerably recently. The price of metal culverts has also increased.

The price I am quoting you is one that was received from my supplier on _____
_____. Should the price increase or decrease from
now until the order is placed for the culvert, the amount billed to you would be
adjusted accordingly.

Any backfill material needed, such as dirt or gravel, will be added to the cost of
installation.

Ron Renth, Public Works Director
